1.As shown in the figure

2.Heat the hot melt adhesive and apply it to the prompt

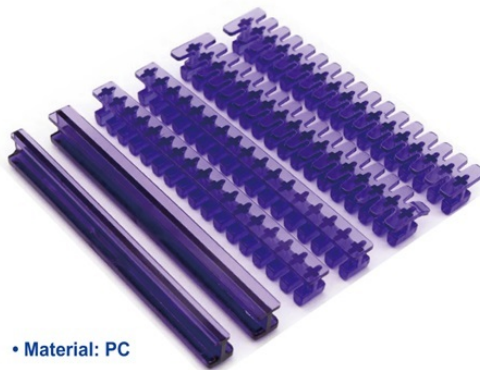

3.Quickly press the tab coated with hot melt adhesive onto the dents that need to be repaired

4.Repair by repeatedly pulling with a sliding hammer

BS-9427

4 PCS SAW TOOTHED STRIP TYPE & 2PCS RECRANGLE STRIP TYPE TAB PULLER

• Material: PC

1.As shown in the figure

2.Heat the hot melt adhesive and apply it to the pull bar

3.Quickly press the puller coated with hot melt adhesive to the desired position repaired dents

4.Install the pull groove onto the pull bar again

5.Using a sliding hammer for repeated pulling and repair

6.As shown in the figure

BS-9428

MASTER TAP DOWN TOOL SETS

1.Find the protrusion

2.Install the appropriate repair head

3.Align the protrusions that need to be repaired and strike them, as shown in the figure

• Material:
*Replacement head material:
Stainless steel replacement head + Iron replacement head + Resin replacement head + Nylon replacement head

*Plastic Pen Material:
Aluminum Handle + Stainless steel tail + Stainless steel top

WELDING PLATE CLAMP PULLER SET

www.kaupa.com.tw

BS-9458A / BS-9458S

9458A Welding Plate Clamp Puller Set – Aluminum material plate

9458S Welding Plate Clamp Puller Set – steel material plate

BS-9458C-6A / BS-9458C-6S

9458C-6A Welding Pull Clamp w / 6pcs Aluminum material plate

9458C-6S Welding Pull Clamp w / 6pcs steel material plate

6pcs steel material plate

- This set of clamps is universal, meaning it can be used on a wide range of vehicle makes and models.
- This versatility makes it a valuable tool for those working on different types of vehicles.

APPLICATION:

• HIGH-QUALITY STEEL

• STRUCTURAL STABILITY

BS-9458A & 9458S & 9458C-6A & 9458C-6S

- Full sizes weld and clamp pull plate set ideal for pulling panels out on hard to hold pulls. Tack weld one of the reusable plates.
- Attach clamp and pull, break tack weld with a grinding cut-off wheel or cutting torch. It's easy to use and handy to have!

• Contents:

1. Pull Clamp
2. Sliding Hammer -1.3kg
3. Weld Pull Plates

*25x75mm Pull Plate, thickness 1.5mm

*38x75mm Pull Plate, thickness 1.5mm

*50x75mm Pull Plate, thickness 1.5mm

*75x75mm Pull Plate, thickness 1.5mm

*125x75mm Pull Plate, thickness 1.5mm

*150x75mm Pull Plate, thickness 1.5mm

• RELIABILITY DURING USE

- The clamps are designed to streamline the repair process. They facilitate precise pulling and welding, resulting in professional-quality results in less time.
